The theory that antidepressants outperform placebo merely by means of side effects making the patient realizing that he or she has not been given placebo, and thereby enhancing the expectancy of improvement, may be rejected according to a new study of the antidepressant efficacy of two of the most commonly used SSRIs, paroxetine and citalopram. The analysis, which comprised a total of 3,344 patients, shows that the two studied drugs are clearly superior to placebo with respect to antidepressant efficacy also in patients who have not experienced any side effects. The researchers conclude that this study, as well as other recent reports from the same group, provides strong support for the assumption that SSRIs exert a specific antidepressant effect. They suggest that the frequent questioning of these drugs in media is unjustified and may make depressed patients refrain from effective treatment.

Children whose mothers took multivitamins during pregnancy are roughly 30 percent less likely to develop autism with a co-occurring intellectual disability, according to a new study published in BMJ (formerly The British Medical Journal).

Among adults without asthma who developed an acute lower respiratory tract infection, use of the oral steroid prednisolone for five days did not reduce symptom duration or severity, according to a study published by JAMA. Acute lower respiratory tract infection, defined as an acute cough with at least one of the symptoms of sputum, chest pain, shortness of breath, and wheeze, is one of the most common conditions managed in primary care internationally and is often treated inappropriately with antibiotics.

SHOP TODAY'S LOW PRICE TAGS:
 We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS:
 Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.

Hoyt Hutson

May 24, 1950 ~ February 27, 2018

Thank you seems so inadequate in light of the outpouring of love and kindness show to us during Hoyt's illness and passing.

My heart I overwhelmed with gratitude ... to Spring Hill Baptist church, our source of strength in so many ways - prayers, visits, meals, chicken house help and so much more; to Tim Aris, Ken Dees, Samuel and Jennifer Tucker - thank you for your part in the funeral service, it was beautiful; Tammy, Derrick and Karen - thank you for being there with Dad when you were needed most, he loved seeing you all together; to our special friends, Phillip Hutson, Rose McCluskey, Steve, Paula and SaraBeth Harbison - you all went above and beyond with your help and encouragement; to Dr. Angelia Elliott and Laura, and Stephanie and Blair fro Alacare - thank you f or your care; to West Point's Class of '69 and Hoyt's childhood friends - thank you for reaching out to us, Hoyt was so happy to hear from you; to Moss Service, thank you for your kind attention and help; to other churches and friends, thank you for everything. We are especially grateful to god that Hoyt no longer suffers and has finally met Jesus face-to-face.

Hoyt was a faithful member and supporter of Spring Hill Baptist Church for over 50 years. He loved to visit and share the Gospel of Jesus Christ. He loved his family and friends unconditionally. He will be sorely missed and always loved.

Thank you from the bottom of my heart.

Donna Hutson and Family
