30 seconds:
National Infant Immunization Week (NIIW) is an annual observance to highlight the importance of protecting infants from vaccine-preventable diseases and celebrate the achievements of immunization programs and their partners in promoting healthy communities. Nothing protects babies from 14 serious childhood diseases better than vaccinations. Vaccines are one of the top public health achievements of the past decade because they have reduced or even eliminated many diseases.

For more questions about infant immunization, please contact the Livingston County Department of Health at 243-7299 or visit our website at <http://www.livingstoncounty.us/doh>.

Keshequa Chess Team Victory

Dylan Macierowski

On Saturday, April 14, 2018, the Keshequa Elementary School Chess Team captured its 5th BOCES Championship in six years. By the end, they had edged Geneseo out 9-6.

Keshequa had won the first two elementary matches, but were without the services of Joel Mitchell, making them underdogs.

The match came down to the last round game between Keshequa's Caleb Carroll and Geneseo's undefeated Dylan Macierowski, when Carroll unleashed a vicious Queenside attack to win the match as well as the individual honors.

Macierowski then defeated Keshequa's Austin Sabol to hold on to the 2nd place. Geneseo's Luke Davis claimed fourth place.

When all was said and done, Keshequa had finished their season 5-0!

The annual budget vote for the fiscal year 2018-19 by the qualified voters of the Dalton-Nunda Central school district, Livingston County, New York, will be held at Keshequa Middle/High school(s) in said district on Tuesday, May 15, 2018 between the hours of 12:00 pm and 9:00pm, prevailing time in the Keshequa Middle/High school(s), at which time the polls will be opened to vote by voting ballot or machine.

1. The basic school tax relief (STAR) exemption is authorized by section 425 of the Real Property Tax Law.

I FOUND A BAT IN MY HOUSE!

You could be subject to getting rabies vaccinations if the bat is not tested.

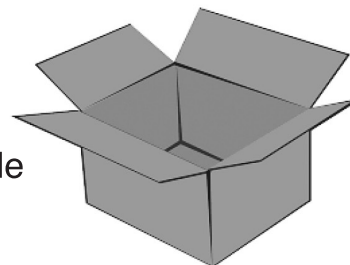

Bats are important in the environment but can cause a serious health risk in the home. Bat bites can transmit rabies. Sometimes even if a bite isn't known you might need to undergo rabies treatment, particularly if an exposure could have occurred while sleeping.

Once rabies is contracted it is nearly always fatal.

If you find a bat in your home:

1. Keep it isolated to one room if possible.
2. Capture the bat if you are comfortable doing so. Wait until it lands and then place a can, plastic container or box over it. Slide a paper under it and then place a cover on top to contain it. You may also contact a wildlife removal specialist to capture it.
3. If the bat is killed, the head must not be crushed or destroyed to allow testing.
4. Call the Livingston County Department of Health, Center for Environmental Health, at (585) 243-7280 / (585) 335-1717. For after hours emergencies, call the Livingston County Sheriff's Office at (585) 243-7100.

Remember: Capture that bat!

**ELDER ABUSE
THRIVES IN SILENCE**

**Victims are often
too afraid, too sick
or too embarrassed
to speak up.**

Elder Abuse is:

- Pushing, hitting, punching.
- Shouting at, berating, intimidating, threatening harm.
- Stealing or fraudulent use of an elder's funds.
- Neglecting an elder's physical, medical and emotional needs.

If you know an older adult who is being harmed in any way, break the silence.

This program is funded in part by
Monroe County Office for the Aging,
New York State Office for the Aging,
US Administration on Aging,
Lifespan of Greater Rochester, and
participant contributions.

NATIONAL INFANT IMMUNIZATION WEEK (NIIW) is an annual observance to highlight the importance of protecting infants from vaccine-preventable diseases and celebrate the achievements of immunization programs and their partners in promoting healthy communities. This year NIIW will be April 21-28. Immunization gives you the power to protect your baby from 14 serious childhood diseases. Vaccines are one of the top public health achievements of the past decade because they have reduced or even eliminated many diseases. It's easy to think of diseases like polio, rubella, whooping cough, and measles as diseases of the past, but the truth is they still exist. Before a vaccine is approved and given to children, it is tested extensively, and vaccines are the safe and proven choice. For any questions regarding infant immunization, please contact the Livingston County Department of Health at 243-7299 or visit our website at <http://www.livingstoncounty.us/doh>.
