How Does Hypnosis Work?

Hypnosis is a safe and effective tool in helping you accomplish your goals. Some frequently asked questions about hypnosis:

1. Can everyone be hypnotized? No. If you are below normal intelligence, psychotic or under the age of 4 it is hard to be hypnotized.
2. Do you lose consciousness? No. You will be even more awake during hypnosis than before. Hypnosis is not sleep.
3. Do you surrender your will? No. Under hypnosis you are capable of making decisions at all times.
4. Must you be weak minded to be hypnotized? No. Hypnosis requires concentration, the more intelligent you are, the easier it is for you to be hypnotized.
5. Do you reveal secrets? No. You are totally aware of everything while being hypnotized, including what you say.
6. Does everyone come out of

hypnosis? YES! You can readily revive yourself at any time. You are in control.

7. What does hypnosis feel like? Many people feel extremely relaxed but fully aware during a hypnosis session.
8. How does hypnosis work? Hypnosis works with your sub-conscious. During a hypnosis session you are given positive and beneficial suggestions while in a trance state. Your sub-conscious hears the suggestions being given to you by the hypnotist. However, it is up to you to accept or decline these suggestions. Remember, you are always in control.

You don't have to do it alone.

Create A Healthy Meal!

Hearty winter meals have a tendency to lack the color and vitality that comes with fresh produce. Year-round availability of a wide variety of fruits and vegetables means that fresh produce can still be the centerpiece of meals any time of year. The rich antioxidants and vitamins in produce can help fend off illnesses and ensure you have the energy for other activities.

Wild rice paired with a bevy of vegetables are ideal ingredients for delicious, filling and nutritious meals all season long. Wild rice is the only grain native to North America and is celebrated across cultures as a prized ingredient because it is chock full of nutrients and said to contain higher levels of antioxidants and protein than white rice. Create a delicious meal like this salad, courtesy of Nicole Presley, author of the recipe blog "Presley's Pantry."

WILD RICE, MANGO AND ARUGULA SALAD

- | | |
|---------------------------------------|--|
| 1 C Wild Rice | 1 C arugula |
| 2-1/3 C chicken broth | 1 large avocado, diced |
| 1 C cucumber, chopped into cubes | 1/2 C red onion, chopped |
| 1 C panela cheese, chopped into cubes | 1 C mango, diced |
| 6 basil leaves, chopped into strips | For the dressing: |
| 20 cherry tomatoes, cut in half | 1/2 C fresh lime juice (about 4 limes) |
| 1/4 C pine nuts | 1/4 C Olive Oil |
| 1/2 C dried cranberries | 1 teaspoon salt |
| 1/2 C diced pear | Pepper to taste |

In a pot over a medium-high flame, add chicken broth and bring to a boil. Add in rice and return to a boil. Once boiling, place a lid on the pot and lower the flame to a simmer. Simmer for 45 minutes. Remove pot from heat and let rice rest in pot for 10 minutes. Place rice in a strainer and rinse under cold water. Let drain completely. In a large bowl, add cucumber, panela cheese, basil, cherry tomatoes, pine nuts, dried cranberries, pear, arugula, avocado, and red onion. Mix well to combine. Pour drained wild rice into veggies. Mix well. Then add in the mango and give it another mix. In a small bowl or cup, mix all ingredients for dressing and pour over the salad.
