Barry Williams - 256-531-6405

Every lawyer knows that as a sitting judge, I am bound by judicial ethics that prevent me from commenting on the facts or merits of any case, or discussing why I made particular rulings.

Mr. Hasting knows, or should know, that as a judicial candidate he is bound by those same ethical constraints, which prohibit him from cherry-picking his half-truths from specific cases.

WHAT I CAN SAY IS:

NOT ONCE in 23 years as an attorney in private practice did anyone question my personal or professional integrity or ethics.

NOT ONCE in 7 years as a prosecutor for the Cullman County District Attorney's Office did anyone question my personal or professional integrity or ethics.

NOT ONCE in 5 1/2 years as your Circuit Judge has anyone questioned my personal or professional integrity or ethics, until this election.

MR. HASTING has clearly decided that his only chance to be elected is not to offer himself as someone to vote for, but to try to make me someone to vote against.

IT IS UNDERSTANDABLE that Mr. Hasting does not want to run on his record. When running on his own merits, voters rejected him in attempts to be elected a District Judge; Circuit Judge; Member of the House of Representatives, District 11; and Member of the House of Representatives, District 9.

SIX YEARS AGO I promised you that I would be fair, honest and use my experience to be a judge you can be proud of. I have kept those promises and will continue to always conduct myself ethically and honestly. I will never attempt to mislead you or deceive you to get votes because honesty and integrity matter.

Re-Elect!

LET'S KEEP Tammy Brown

Probate Judge

For All People

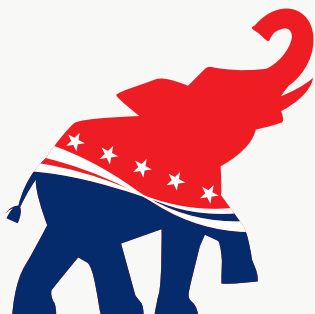

While working in the Probate Office over the years and serving as your Probate Judge during my first term I've had the opportunity to see and visit with many of you in a more relaxed setting where we could discuss any topic you feel is important. I have worked hard to see and visit as many of you as possible as I will continue to work to visit with many more of you that I possibly can. If I have not had the opportunity to visit with you I want to **INVITE YOU:**

**We will have a TENT at the
STRAWBERRY FESTIVAL MAY 5, 2018**

Please come by to get a t-shirt, yard signs or just visit
I would love to see you there.

I thank each person
supporting me.

I could not do this
without you.

People who go to a church and think they are saved by a new lawless covenant are casting down The Holy Father's Word and stomping on it. As Adam and Eve in the garden of Eden were beguiled, so are these people who call themselves Christians just by believing church doctrines of man's commandments (Gen 3:1-24, Mt 15:9, Rev 22:14-15). The Holy Living Truth does not change (Mal 3:6, Heb 13:8). It is by Satan's contortion of the truth (Dan 7:25) that many have accepted his beguilement for Christian ways, not by The Holy Messiah (Mt 5:17-19, Acts 3:23, Rom 3:31)! So Be It!

Vitamin D deficiency in expectant mothers during pregnancy has a negative effect on the social development and motor skills of pre-school age children, a new study in the British Journal of Nutrition reports.

A new study in JAMA Surgery analyzed more than 200,000 opioid-naive individuals who had undergone one of eight common surgical procedures between 2006 and 2014 and were subsequently prescribed opioid pain medication. Every day, more than 90 Americans die after overdosing on opioids, according to the National Institute on Drug Abuse. Misuse of and addiction to opioids has become a public health crisis with more than 2 million Americans suffering from substance abuse issues related to prescription opioid pain medication. While over-prescription of pain medications has been implicated as a driver of this growing opioid epidemic, few guidelines exist on how to appropriately prescribe opioid pain medication following surgery with the goal of balancing pain with risk of addiction. Using a nationally representative sample of people who were opiate naive undergoing common procedures, researchers found that median prescription length for the first-time prescriptions was four to seven days, and that the number of people who required a refill of their opiate prescription varied from 11.3 percent to 39.3 percent depending on the type of procedure performed. The duration of the prescription also varied depending on the category of procedure, from nine days for general surgery procedures to 15 days for musculoskeletal procedures. While seven days may be more than adequate for many patients undergoing common general surgery and gynecological procedures, prescription length limits may need to be extended to 10 days, recognizing that as many as 40 percent of patients may still require a refill at a seven-day limit for pain management, particularly following many orthopedic and neurosurgical procedures.
