Aphorism

Aphorism is a statement of truth or opinion expressed in a concise and witty manner. The term is often applied to philosophical, moral and literary principles.

I read that 4,153,237 people got married last year Not to cause any trouble, but shouldn't that be an even number?

The Pearly Gates

A man appears before St. Peter at the Pearly Gates.

"Have you ever done anything of particular merit?" St. Peter asks.

"Well, I can think of one thing," the man offers. "Once, on a trip to the Black Hills, out in South Dakota, I came upon a gang of high-testosterone bikers who were threatening a young woman. I directed them to leave her alone, but they wouldn't listen. So I approached the largest and most heavily tattooed biker. I smacked him on the head, kicked his bike over, ripped out his nose ring and threw it on the ground, and told him, 'Leave her alone now or you'll answer to me.'"

St. Peter was impressed. "When did this happen?"

"Just a couple minutes ago."

First Fight

A young couple were having their first fight, and it was a big one. After a while, the husband said: "When we got married, you promised to love, honor and obey."

His bride replied: "I know. But I didn't want to start an argument in front of all those people at the wedding."

ARIES (March 21 to April 19) Taking advice isn't always easy for self-assured Rams and Ewes who think they know what's best. But it wouldn't hurt to listen to what close colleagues have to say.

TAURUS (April 20 to May 20) You know how to balance life's practical aspects with the poetic. This gives you a special edge this week in both your professional endeavors and your personal life.

GEMINI (May 21 to June 20) Focus on keeping a balance between your home-related activities and your workplace responsibilities. Be mindful of both without obsessing over one or the other.

CANCER (June 21 to July 22) A change in plans is likely as you discover more facts about a possible commitment. Continue to ask questions and, if you're not sure about the answers, demand proof.

LEO (July 23 to August 22) Be careful not to let that Leonine pride keep you from seeking wise, experienced counsel before making an important decision. A family member once again seeks your help.

VIRGO (August 23 to September 22) That surge of Virgo energy drives you to take on more work assignments. Be careful you don't overdo it, or you might find yourself overdone: i.e., burned out.

LIBRA (September 23 to October 22) Your decision to be upfront with colleagues on a touchy matter causes some consternation at first. But in the end, your honesty wins their trust and admiration.

SCORPIO (October 23 to November 21) As in the past, someone again wants to share a secret with you, knowing it will be safe. But do you really want to be this person's confidante? Think about it.

SAGITTARIUS (November 22 to December 21) As one of nature's straight shooters, you seek to correct misconceptions about a project. Do so, of course, but without giving away too much too soon.

CAPRICORN (December 22 to January 19) Creative pursuits continue to be strong in the gifted Goat's aspect. New friendships can come from sharing these experiences with like-minded art aficionados.

AQUARIUS (January 20 to February 18) Resolve lingering grumblings over your way of doing things by keeping your mind open to suggestions while continuing to show how your plans will work.

PISCES (February 19 to March 20) The perceptive Piscean might find that changing course in midstream isn't as workable as it would seem. Explore this option carefully before making a decision.

BORN THIS WEEK: Your willingness to share your love of life's good things brings joy to many, including, of course, yourself.

Young and Poor

Well, it's not a midlife crisis, but here's how things worked out for me.

Married 39 years, took a look at my wife one day and said, "Honey, 39 years ago, we had a cheap apartment, a cheap car, slept on a sofa bed and watched a 10 inch black and white TV, but I got to sleep every night with a hot 19 year old brunette.

Now, we have a nice house, nice car, big bed and plasma screen TV, but I'm sleeping with a 58 year old woman.

It seems to me that you are not holding up your side of things."

My wife is a very reasonable woman.

She told me to go out and find a hot 25 year old blond, and she would make sure that I would once again be living in a cheap apartment, driving a cheap car, sleeping on a sofa bed....

Miracle Cure?

Doctor Bloomfield, who was known for extraordinary treatment of arthritis, had a waiting room full of people when a little old lady, almost bent over in half, shuffled in slowly, leaning on her cane. When her turn came, she went into the doctor's office and, amazingly, emerged within 5 minutes walking completely erect with her head held high.

A woman in the waiting room who had seen all this rushed up to the little old lady and said, "It's a miracle! You walked in bent in half and now you're walking erect. What did that doctor do?"

"Gave me a longer cane."

PIEDMONT PETS

Most people who come into the shelter to adopt an animal want a younger one. It is understandable that people want to have as many years as possible with a new companion animal. It is also true that older animals have a tendency to have more health problems than younger ones. With these truths comes the sad reality that, in a shelter, senior animals are often overlooked.

In June of 1992, not long after I started working for the Danville Area Humane Society, a dignified, elderly golden cat was brought to us by his owners because they thought he was too old and they wanted a kitten. I thought then how sad it was that they were willing to turn their backs on such a treasure.

Through the years, we have had many senior animals brought to us in the hopes they can be "exchanged" for a younger one. The answer is always no.

Older animals generally have calmer dispositions. Their personalities are also obvious; with kittens and puppies, personality issues probably will not be known until later.

I have a friend, Sharon Adams, who retired a few years ago after serving as director of the Virginia Beach SPCA, an organization that has a very large private shelter. Sharon only adopts dogs and cats that are at least nine years old. She knows her time with them will be short, but she wants to give the elderly ones a chance to have a happy ending to their lives.

In 2009, we established a fund to help senior dogs and cats who come into the shelter. Sometimes, they have medical issues that, if treated, would make them very desirable pets. This fund, the Fritz Childrey Fund for Older Friends, allows us to finance veterinary care for older shelter animals, waive the adoption fee, and pay for the spay/neuter surgery. Older dogs and cats are now in loving homes because of this fund. Donations, of course are accepted to finance this fund.

It is a sad fact that we will outlive most of our pets. It is painful when they die because our grief goes as deep as our love. We encourage potential adopters to look beyond the cute little puppies and kittens and search for a loving senior companion.

* It was influential American science-fiction author Philip K. Dick who made the following sage observation: "Sometimes the appropriate response to reality is to go insane."

* The skin of the African elephant, the largest living land animal in the world, weighs 2,000 pounds by itself, and there are more than 60,000 muscles in its trunk alone.

* You've almost certainly heard of narcolepsy, a medical condition that causes sufferers to sleep excessively, sometimes up to 18 hours a day. You're probably not familiar with philagrypnia, though. People with this condition -- I won't call them "sufferers" -- require only three or four hours of sleep a day. What would you do with all that extra time?

* If you're like most people, the length of your footprint is approximately 15 percent of your height.

* While at a Turkish bath in San Francisco, Samuel Clemens -- better known to us as Mark Twain -- got involved in a chat with a local fireman. This may not seem at all interesting until you learn the name of that long-ago firefighter: Tom Sawyer. The author liked the name so much that today, American schoolkids all know it.

* There is a law on the books in Maine that prohibits having your shoes untied in public. I assume that this one is not much enforced.

* Ever had to make a large claim to your insurance company? If you thought it was a pain to fill out all the paperwork and explain what happened, consider the plight of the poor soul who had to handle the claim in 2006 when a guard dog mauled a teddy bear that once belonged to Elvis Presley -- the stuffed animal was valued at \$80,000. ***

The Month of April is National Safe Digging Month Danville Utilities offers the Following Safety Tips

APRIL IS NATIONAL SAFE DIGGING MONTH

Danville Utilities wants to remind you that it is **STATE LAW** to call 811 before you start digging around your property for that spring project. When you call 811 a professional locator will come out to your property and locate all underground utilities that you may not know about, such as buried water, phone, electric, and gas lines. This service is **free** and can help you avoid a costly and possible dangerous excavation accident. When you call you must wait the required time (3 days) before digging, so plan ahead. Call by Tuesday to dig on Saturday.

Remember to always call before you dig, no matter how large or small your project is, if you dig you must call.

CARBON MONOXIDE

Incomplete combustion of any fuel produces carbon monoxide. Carbon monoxide is poisonous and has no odor, taste or color. Carbon monoxide detectors are very helpful in the detection of this harmful gas but they are no substitute for using gas burning appliances or appliances properly. This includes having them serviced and inspected once a year by a certified contractor.

Possible symptoms of carbon monoxide poisoning;

- Dull headache
- Weakness
- Dizziness
- Nausea and vomiting
- Chest pain
- Confusion
- Impaired judgment and irritability

WHAT TO DO IF YOU SUSPECT A GAS LEAK

- Look** for blowing dirt or continued bubbling of standing water.
- Listen** for loud hissing or roaring sound near natural gas appliances or lines.
- Smell** for the distinctive rotten-egg scent, act even if it is a small amount.
- Leave** the area **at once** if you detect a leak. Do not try to locate or fix the leak.
- Call** Danville Utilities at 434-799-5284 or 911 once you are safely away from the area. Stay away until a Danville Utilities representative or emergency personnel indicate it is safe.

DCC Phi Theta Kappa Chapter Earns National Recognition

DANVILLE, VA., MAY 1, 2018 – Danville Community College’s (DCC) Phi Theta Kappa (PTK) chapter earned national recognition at the PTK Catalyst convention in April.

The Upsilon Phi chapter was one of only 123 chapters to receive national recognition among PTK’s 1,300 chapters and received the following awards: Distinguished Chapter Award, Honors in Action Project Award, and Top 100 Chapters during PTK’s 2018 Annual Convention in Kansas City, Mo.

Assistant Professor of English Sherry Gott and Assistant Professor of Sociology Vickie Taylor serve as advisors to DCC’s PTK chapter.

“I wanted to personally congratulate and thank you for your support of Phi Theta Kappa,” said PTK President and CEO Lynn Tincher-Ladner to DCC President Bruce Scism in an email on Tuesday. “I know an award-winning chapter has a dedicated advisor and a supportive president. Thank you for all you do, big and small, to give these amazing students the increased confidence and opportunities that come from the success of their chapter.”

Gott, Taylor, and Instructor of Biology Chris Pantazis also earned one of the 15 Distinguished Advisor Team awards.

PTK, headquartered in Jackson, Miss., is the largest honor society in higher education. PTK was established by Missouri two-year college presidents in 1918, and serves to recognize and encourage the academic achievement of two-year college students and provide opportunities for individual growth and development through honors, leadership, and service programming.

BBQ CHICKEN

The perfect cookout isn't complete without BBQ Chicken. This recipe is easy to follow with delicious results.

INGREDIENTS:

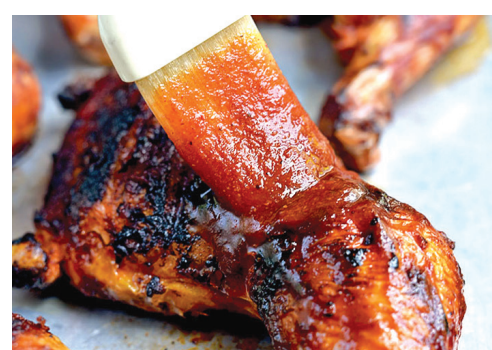

leg quarters (bone-in, skin on)
BBQ Sauce (at least 1/4 cup per pound of chicken) See below

DIRECTIONS:

Heat charcoal grill to 300-degrees F. Place leg quarters skin side up on the grill. Cooked covered for 15-18 minutes. Flip chicken and continue cooking another 15-18 minutes or until internal temperature reaches at least 165-degrees F. Turn the airflow down on the grill to lower the temperature. Brush a generous amount of BBQ sauce on the chicken. Cook covered for around 2 minutes. Flip chicken and brush on more sauce. Close lid and cook another 2 minutes.

Keep flipping and brushing until chicken is coated to preference. If desired, additional sauce may be added while the chicken is cooling.

"My strategy of hurting his hands with my face is working."

What if that crazy dream isn't so crazy after all?

Like traveling the world. For a year. Without checking email.

Or sending your kids away to college and still retiring on time.

Or buying a house—one large enough to fit your family—in the neighborhood where you grew up.

From small goals to lifelong passions, come in and let's check off all your milestones, together.

IT ALL STARTS WITH YES.
