PURVEYORS OF FINE MACHINERY®, SINCE 1983!

- ALMOST A MILLION SQUARE FEET PACKED TO THE RAFTERS WITH MACHINERY & TOOLS
- 2 OVERSEAS QUALITY CONTROL OFFICES STAFFED WITH QUALIFIED GRIZZLY ENGINEERS
- HUGE PARTS FACILITY WITH OVER 1 MILLION PARTS IN STOCK AT ALL TIMES
- TRAINED SERVICE TECHNICIANS AT BOTH LOCATIONS • MOST ORDERS SHIP THE SAME DAY

12" HORIZONTAL RESAW BANDSAW

SPECIFICATIONS:

- Main motor: 20 HP, 220V/440V*, prewired 220V, 3-phase
- Amps: 48A at 220V, 24A at 440V
- Hydraulic tank motor: 2 HP, 6A/3A
- Hydraulic pressure: 775 PSI
- Variable feed speed: 32–82 FPM
- Maximum cutting capacity: 12" x 12"
- Blade to conveyor table distance: ¼"–5"
- Saw wheel size: 28"
- Saw blade size: 168" x 1"
- Saw blade speed: 7300 FPM
- Conveyor belt size: 215¼" L x 11¼" W
- Conveyor table: 102" L x 12" W
- Floor-to-table height: 35½"
- Overall size: 81" W x 65½" H x 108" D
- Approximate shipping weight: 2778 lbs.

FEATURES:

- Two 4" dust ports
- Return rollers
- Adjustable blade guard
- Manual cutting height adjustment
- Variable feed speed by hydraulic drive
- Manual blade tension adjustment by handwheel
- Movable control panel
- Carbon steel guides
- Steel frame construction
- Steel conveyor table
- Rubber conveyor belt
- 8" Cast iron pressure rollers with polyurethane tires

Includes a Lenox® Carbide-Tipped Thin Kerf Blade

G0503 ~~\$9350⁰⁰~~ **SALE \$7750⁰⁰**

16" DUAL CONVEYOR HORIZONTAL RESAW BANDSAW

SPECIFICATIONS:

- Main motor: 30 HP, 220V/440V*, prewired 220V, 3-phase, 72A/41A
- Elevation motor: 1/2 HP, 2.2A/1.1A
- Maximum capacity: 16" wide x 10" high
- Blade to conveyor table distance: ¼"–10"
- Blade size: 180" x 1"
- Blade speed: 7300 FPM
- Blade wheel size: 28" x 7/8" thick
- Conveyor belt sizes: 215¼" L x 15¼" W and 215¼" L x 7¼" W
- Variable feed speed: 0–61 FPM
- Feed conveyor table: 106" L x 16" W
- Floor-to-table height: 40"
- Overall size: 85" W x 83½" H x 108" D
- Approximate shipping weight: 4325 lbs.

FEATURES:

- Digital height control for accurate blade positioning within 0.01" (enter the thickness you want and press a button)
- Variable-speed, hydraulically-driven feed and return conveyors
- Powered saw elevation
- Hydraulic blade tensioning with gauge
- Two 4" dust ports
- Adjustable ceramic blade guides
- Massive steel frame construction
- Steel conveyor table
- 4" Cast iron pressure rollers with polyurethane tires
- Bi-fold doors
- Simple and quick blade changes

Includes a Lenox® Carbide-Tipped Thin Kerf Blade

G0504 ~~\$17,500⁰⁰~~ **SALE \$16,295⁰⁰**

*To maintain machine warranty, 440V operation requires additional conversion time and a \$250 fee. Please contact technical service for complete information before ordering.

TO MAKE EVERY DOLLAR COUNT— YOU HAVE TO MAKE EVERY CUT COUNT

Selecut® V with Inline Squeeze

- For prime lumber cut to length or Precision End Trimming needs, our Selecut®-V uses a Fixed Frame Assembly with a moveable cutting platform to meet your production needs in a limited space environment and is available with our Inline Power-Squeeze Package Alignment system.
- For high-volume automated crosscutting of industrial length stock, our Autocut®-V uses a computerized carriage assembly with PLC controls enabling you to process lumber without an operator present.

Transcut® II Station
from \$26,999*

Transcut® II Portable
from \$7,999*

Autocut® V

- For custom manufacturers, our Transcut® II Station will cleanly cut through a unit of hardwood or softwood in less than a minute using generic chain-saw chain and with a precision of +/- 1/16th" or better*.
- For simple crosscutting of EWP or lumber, our versatile Transcut® Portable saws are priced and designed to offer a significantly safer and faster alternative to hand-held chain saws.

We're proud of the fact that HOLTEC pioneered the concept of precise package cutting over 40 years ago. Today our industry's technological and manufacturing advances have enabled us to achieve the fastest cut in the industry and an unmatched precision on every cut. So, if you're considering investing in a package-crosscut saw, consider these facts*:

- At 55 seconds per cut HOLTEC systems cut up to twice as fast as other systems available today;
- With our own team of dedicated Field Technicians and service vehicles, HOLTEC is the only company that provides you a service response time of 24 hours or less on-site and on-time;
- Our state of the art Germany manufacturing facilities are ISO-9001 certified, ensuring that you're getting the highest quality manufacturing standards available today;
- With an unmatched precision of +/- 1mm (.040"), HOLTEC systems exceed precision-end-trim tolerances;
- HOLTEC systems are designed with the highest safety standards in the world, ensuring that your employees are working in the safest environment for package-crosscutting available today;
- HOLTEC has almost 2,000 systems in North America and over 8,000 systems delivered worldwide, ensuring that we'll be here for you in the future as we have been for the last 40 years

WE ENSURE EVERY DOLLAR COUNTS BY ENSURING EVERY CUT COUNTS

**Precision.
Performance.
Production. Profit.**

Perfect for Rig Mat & Truss Stock, L-M's Verticut P4 consistently delivers a P.E.T. cutting tolerance of $\pm 1/32$ " and a trim end finish that is as good or better than conventional trim saws.

*Built to
Provide Service,
NOT Require It*

The Verticut P4 is one great machine in the L-M family of efficient, cost effective package lumber cutters. With 60 years in the business, L-M Equipment has more package cross cut systems in operation than any other manufacturer in North America. We serve customers around the world.

Contact L-M Equipment for more information!

Features include:

- Programmable touch screen
- Automated PLC controls
- Remote starting
- Operator weather protection
- FACT™—Fast Advance Cutting Technology to substantially reduce cutting cycle time.

I-CUT

WHEN IT COMES TO MOLD CONTROL...

NOBODY STACKS UP BETTER THAN ISK.

The truth is, mold can make your pallets look bad...smell bad...and worst of all, it's bad for business—eating away at your productivity and profits. The good news is, for proven mold control in finished pallets, few other suppliers compare to the service and performance you get from ISK Biocides.

For the food, pharmaceutical and paper industries, we offer a full range of effective mold-control treatments for the many different processes of pallet production. All backed by our unmatched service and 80 years experience in wood preservatives. In fact, our knowledgeable sales representatives help you find not only the best product for your particular mold problem, but the best solution that fits your manufacturing operation.

So whatever your mold problem or production need, trust ISK for a better solution that's truly better for your pallet business. Call your ISK Biocides representative today about our full line of mold control treatments. And see for yourself how well we stack up with real experience, proven performance and lasting value in mold protection!

Stop Mold Cold...Start With ISK!

- 80 Years of Experience in Proven Mold Control
- Full Line of Mold Control Products for Food, Pharmaceutical and Paper Industries
- EPA-Registered Treatments for Mold Control
- PQ-80 is approved for food contact
- Personalized and Responsive Customer Service

NEW Tech® PCN-55M

TECH

The better alternative for pallet recyclers

More power, less weight & better durability.

For driving nails 1-3/4" to 2" with diameters .083" to .090", we proudly introduce the new Tech PCN-55M nailer.

After many years of experience working with pallet recyclers, we've designed our new tool with features like a thicker reinforced nose and contact arm for extra durability, and air flow that is optimized to generate more power with less weight - a third to a half a pound lighter than competitive tools.

Our customers also report that the new PCN-55M holds up better in colder winter temperatures.

Although nail pricing is one component when choosing a company, an even greater consideration for us is the nail guns. Being a recycler, wood density varies from softwood to rock hardwood. The Tech 55M handled all materials with ease. It has increased production by approximately 30%. A single individual was able to increase his output from 200 to 300 pallets per day, very impressive. Overall its proven itself as a money maker for the company.

Customized Round Saws For Your Mill

Smith Sawmill Service designs and manufactures custom saws to fit your specifications. Our experience, advanced design software and complete CNC machine and saw service are backed by more than 25 years experience serving the wood industry.

We make sure our customers have the best cutting tools to increase yield and produce the highest quality lumber products in the most efficient manner.

Custom circular saw blades for sawmills & timber processing including:

- Precision Auto Tip- Precision Level
- Curve-sawing & Guided Gangs
- Tensioning that fits your machine
- Edger, Trimmer, and gang saws
- Stellite ® / Carbide / Hard tipping
- Vari-Pitch or Conventional

Our saw teeth give you more grinds with less failure...

- Carbide, Plasma weld & resistant weld tips
- Plates only or saws "Ready to Run"

Our Guided Edger Saws are put through 3 stages of leveling & tensioning to assure the best quality possible.

Over 20,000 feet of floor space and 30+ employees to make sure you get the right saw for the right job!

PORTABLE YARD SAW
This portable chain saw is for cutting logs or packages of lumber. It is available with electric drive or 20 HP gas engine with centrifugal clutch. It features manual or electric start.

HIGH SPEED CHOP SAW
L-M high speed chop saw is available in standard sizes from 48 to 84 inches in diameter. It features a heavy-duty construction frame and saw ladder.

DECK SAW
Deck saw with sawbars of up to 12 feet in length are used to cut the largest of logs, and are also used to split logs length-ways.

VERTICUT 2000-M

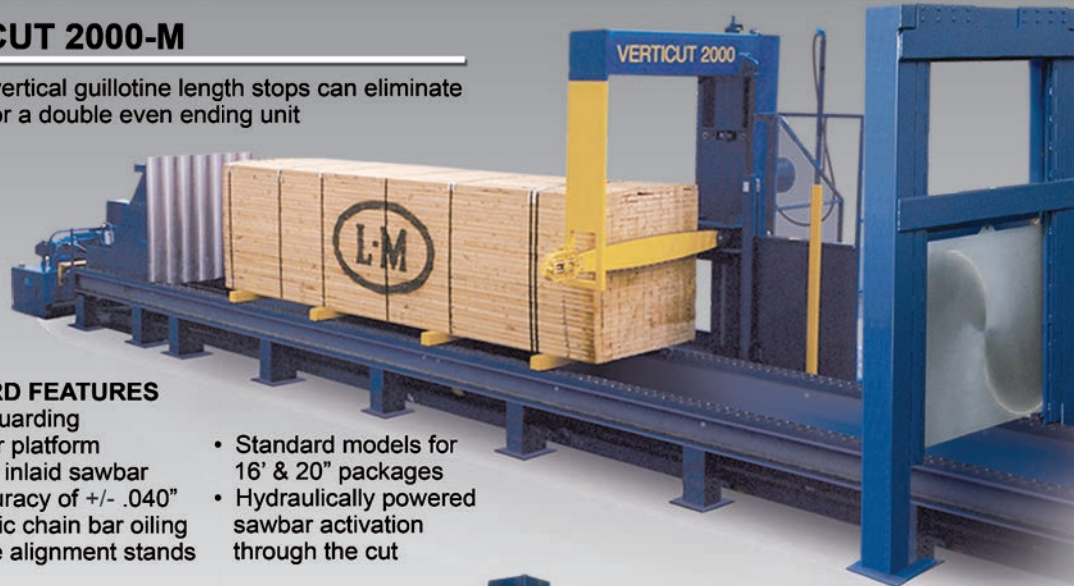

Hydraulic vertical guillotine length stops can eliminate the need for a double even ending unit

STANDARD FEATURES

- Safety guarding
- Operator platform
- "Stellite" inlaid sawbar
- Cut accuracy of +/- .040"
- Automatic chain bar oiling
- Package alignment stands
- Standard models for 16' & 20" packages
- Hydraulically powered sawbar activation through the cut

LS SYSTEM 2000 LOG SPLITTER

- Heavy duty Hydraulically powered splitter using onboard HPU.
- Adjustable travel speed using gear reduction for high torque and low power requirements.
- Splits logs up to 60" diameter by 20ft. long
- 54" vertical adjustment capability for slabs-quartering or sizing to mill capacity.

OPTIONS AVAILABLE

- Laser light saw guide
- Modular package end squeeze
- Modular even ending system
- Automatic strapping system
- Modular infeed/outfeed decks
- Electronic length measurement with digital readout
- Powered carriage positioning

THINKING ABOUT A DEBARKER?

Call The Experts Who've Been Building Them For More Than 60 Years!

Need Electric or Hydraulic? No Problem!

Just send us your specs and we'll build your next Debarker *Your Way!*

The Time to Upgrade is NOW!

HMC is a pioneer in the development of Rosserhead Debarkers. Four models are available to suit most production environments with log diameter ranges 6 - 36", 7 - 42", 8 - 48", 10 - 54" and other sizes, depending on your requirements. These high-quality units feature a slant track design to eliminate log hangup and variable speed controls (either hydraulic or electric) for smooth and responsive log rotation and carriage control.

Get Yours NOW!

Whether a complete "turn-key" sawmill or individual machines to incorporate into your present mill, HMC engineers and builds quality sawmill equipment that maximizes production, ensures safety, needs low maintenance and is rugged and reliable.

Pallet Dip Tank
 Key Design Features:

- Dip tank is fabricated in 1/8" thick stainless steel, type 304, with external painted enamel mild steel structure.
- Standard pallet carriage for pallet stack up to 114" tall and maximum 2500 lbs weight. Dead packed cut stock can also be dipped.
- Tilting carriage is fabricated in stainless steel and mild steel.
- Tilting carriage has clamp system to insure pallets or lumber is submerged.
- Hydraulic system is used for all mechanical operations.
- Estimated dip cycle for pallets is 4 minutes and is user defined.
- PLC control system with remote control for initiating the dip cycle. Dip time and other parameters are adjustable in the control cabinet display.

SMART PRODUCTS

Is Your Answer! For Pallet Lumber Recovery and Repair Solutions.

“The Difference is Engineering”

Leasing & Financing Alternatives Available

Dismantlers

One-Man Dismantler

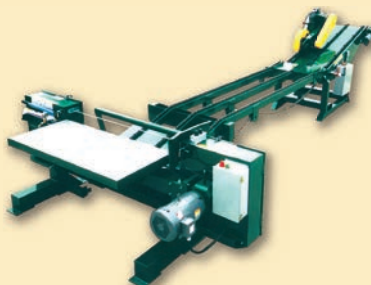

- 52" or 64" capacity
- 10 HP, 3-phase, electric motor standard (2200 FPM blade speed) (single phase available)
- Optional 15 HP, 3-phase (4400 FPM blade speed) electric motor available
- 18 HP gas-powered electric start on Portable Dismantler
- Gear reduction drive
- Self-contained hydraulic blade tensioning
- Low maintenance durable blade guide bearings
- Push button operated table height adjustment

Two-Man Dismantler

Pallet Dismantler System

- 64" capacity **Front Discharge** Dismantler
- Linear accumulating conveyor feeds boards easily to operator of Inclined Power Trim Saw
- Add additional dismantlers for higher production

Portable Dismantler

Notchers

Double Head Notcher

- Two, 20 HP, three (3) phase, electric motors with V-belt driven indexable notching cutterheads
- One-person operation/1,000 double notched stringers per hour
- Notches new or recycled lumber
- 48" to 96" stringer capacity standard
- 9" x 1-1/2" notches, with 18" between notches
- Quick set-up
- Continuous power feed system
- Self exhaust design (useful when notching recycled material)

Single Head Notcher

- 20 HP, three (3) phase, electric motors with V-belt driven indexable notching cutterhead
- One-man operation/500 double notched stringers per hour
- Notches new or recycled lumber
- 72" stringer capacity standard
- Quick set-up
- Continuous power feed system
- Self exhaust design (useful when notching recycled material)

Pallet Prep

- Commonly referred to as the "SmartSaw"
- Smart Saw is **multifunctional**: designed for repair (1 person) or recycling (2 person) operations of BLOCK or GMA/STRINGER pallets
- Standard 10 HP, 3-phase, electric motor with gear reduction drive
- 20' standard **M42 bi-metal** band saw blade
- Air actuated, 3-position, roller table and table extension easily positions pallet for board removal
- Machine provided with **advanced safety measures** in place, including interlock switches for perimeter guarding and cabinet doors
- Improved **canopy guarding**, with front and rear portions that move up and down with the roller table

- Specifically designed to QUICKLY (as a **1-person** operation) cut out damaged boards, including **top and bottom** deck boards, as well as **connector** and **stringer** boards
- Also designed, as a **2-person** operation, to process the disassembly / tear-down of block or stringer pallets for **INCREASED LUMBER RECOVERY**. For block style machine, includes a specially designed **Block Recovery Tool** (or BRT) that **salvages blocks** now being scrapped with other machines and processes

Double End Power Feed Trim Saw

Trim Saws

- Power Feed Trim Saws trim boards 2" thick from 18" - 60" in length on the single end, and 18" - 66" in length on the double end
- Inclined board feed and overhead saw design help eliminate board kickback
- Manual Trim Saw handles boards up to 6" thick and 6" wide
- 18" diameter nail resistant saw blades and 10 HP motors
- Heavy duty steel tube construction
- Multiple adjustable board stops on Single End and on Manual Feed Trim Saws
- Easy blade change
- Easily moved with built-in fork lift pockets
- Right saw head on double end easily adjusts to cut desired board length

Single End Power Feed Trim Saw

Manual Feed Trim Saw

WOOD GRINDING
SIMPLIFIED**

Follow Rotochopper on [f](#) [You Tube](#) [t](#) [+](#) [in](#) [✉](#)

320-548-3586 www.rotachopper.com

The proof is in the product

The Rotochopper FP-66 takes high-volume wood recycling to a new level, outperforming bigger grinders while minimizing fuel costs and maintenance downtime. Best of all, the FP-66 offers the same precision grinding built into every Rotochopper, so you get better mulch, fuel, or bedding, at a lower cost per ton or cubic yard.

How can the FP-66 maximize the value of your wood waste? Contact us to learn more.

SIMONDS[®]

PreSharp[™]

IS REAL SHARP!

PreSharp[™] IS AVAILABLE IN 3 WIDTHS:
• 1" OS wide • 1-1/4" wide • 1-1/2" wide

**Not all Ground
Tooth blades are
created equal!**

PreSharp[™]
SQUARE FACE BLADE DETAIL

Simonds PreSharp[™] blades have a unique, square-face cutting edge.

Conventional blades, even "ground tooth" types, have a twist on the face. This twist pushes saw dust to the sides of the blade, potentially causing poor tracking and dust spillage.

BANDSAW BLADES FOR ALL CUTTING APPLICATIONS

MAKE SIMONDS YOUR SOURCE FOR PORTABLE SAWMILL BLADES, FIREWOOD PROCESSING SAWS, SAW TEETH, & CHIPPER KNIVES.

The Richmond Show

EXPO RICHMOND 2016

Richmond Raceway Complex * Richmond, Virginia
 Friday May 13th 8:30a.m. until 5:00p.m.

and

Saturday May 14th, 2016 8:30a.m. until 3:00p.m.

The 35th East Coast Sawmill and Logging Equipment Exposition

will be 2016's largest collection of sawmill, logging, biomass, pallet and related manufacturing equipment, supplies and services in the Eastern United States. More than 300 exhibiting companies and thousands of forest products industry people will convene for the 35th Richmond Show. The newest and most advanced machinery, equipment and technology in the industry will be on display. There will be acres of active hands-on machinery and equipment demonstrations outside, plus hundreds of indoor displays of new products, methods, technology and trends. Examine and compare products or services before making your purchasing decisions to improve the efficiency - and profitability - of your operation. Please fill out and return the pre-registration form below to the exposition office by April 1, 2016. Confirmations will be emailed to all pre-registered individuals by

May 4, 2016. If no email address is provided, hard copy confirmation will **NOT** be provided due to increased processing, handling, and mailing costs. There will be a **\$10.00** charge for those who register **on-site**. Pre-registrants receive HALF-OFF the on-site registration fee. All registration fees will be collected at EXPO Richmond entrance - **DO NOT SEND MONEY** with this form. Registration entitles attendees admission to BOTH EXPO 2016 exhibition days. Virginia Forest Products Association (VFPA) members who pre-register will **NOT** be assessed registration fees. For further information on becoming a VFPA member or regarding EXPO Richmond 2016, please call **(804) 737-5625**. Don't miss this opportunity to invest in your future.

EXPO RICHMOND 2016		Co-sponsored by Virginia Polytechnic Institute & State University Cooperative Extension and Virginia Forest Products Association
Return by April 1, 2016 to: EXPO RICHMOND 2016 • P. O. Box 160 • Sandston, VA 23150-0160 Please fill out completely and legibly. Incomplete or illegible forms can not be processed. Only industry personnel should complete this form. Please copy this form for additional registrants. Spouses and children under 18 DO NOT complete this form. EXHIBITORS: Please contact Show Management for registration forms.

Educational Course Information Thursday, May 12, 2016

Educational Workshops will be held Thursday, May 12, 2016. Hosted by the Department of Sustainable Biomaterials at Virginia Tech, presenters and topics will include: Brian Bond - **Vacuum Drying Opportunities for the Wood Products Industries**; Urs Buehlmann - **The American Housing Market & its impact on the Wood Products Industry**; Henry Quesada - **Lean Logistics: Identifying & measuring waste in your supply chain**; and Mike Snow (TBA) - **American Hardwood Exports**. More information regarding these programs will be available after January 1, 2016. Registration for Educational Courses is SEPARATE from the exposition registration. **YOU MUST REGISTER FOR EACH EVENT SEPARATELY**. Information regarding the Educational Courses will be available at www.sbio.vt.edu

THE AWARD-WINNING NORTHEASTERN FOREST PRODUCTS EQUIPMENT EXPOSITION

Where serious business is conducted

Thousands of hard working people plan to get together in Essex Junction, Vermont this May to conduct serious business. The Loggers' Expo is the largest and best exposition of supplies and services, heavy equipment and trucks – for loggers and land clearers, tree care professionals and firewood dealers, sawmillers and landowners. If you're serious about your business – you need to attend or exhibit in Essex Junction, Vermont.

🌲

2016 Loggers' Expo May 6-7, 2016, Champlain Valley Exposition Essex Junction, Vermont

For information about attending or exhibiting at the **2016 Loggers' Expo**, visit us online at www.northernlogger.com or call toll-free **800-318-7561** or **315-369-3078**.

Navigating the Challenges

OUR UNIQUE & INNOVATIVE WOOD DRYING PROCESS DELIVERS RESULTS

BRIGHTER LUMBER MEANS HIGHER SALES

Nova Dry Kiln's innovative technology offers a unique drying method that is kinder and gentler to the wood drying process. This process results in brighter lumber and gives our customers higher sales. Nova Dry Kiln builds and designs medium and large kilns ranging from 5,500 to 120,000 or more board feet.

TIMBER DRY MANAGEMENT CONTROLS OFFER FLEXIBILITY AND EASE OF USE

When using the Timber Dry Management System kiln operators have a straight forward, simple to use, flexible program. Kiln operators can make instant changes on the touch screen interface that is provided for each individual kiln. This drying control technology uses the exclusive proven and cost-saving Nova Dry Kiln methodology.

INNOVATIVE TECHNOLOGY SAVES MONEY ON UTILITIES AND DEGRADE

Our kilns not only save money on utilities but our customers experience end results of only a 1 to 1 1/2% degrade. Using the combination of a thermal blanket created from our heated floors, with fans that do not reverse rewetting the lumber surface, also moisture is not reintroduced into the drying chamber for humidity control or conditioning, to the aluminum-lined walls that offer a superbly insulated chamber, the Nova Dry Kiln saves you money on your utilities and provides you with a superior end product and in most cases only a 1 to 1 1/2% degrade.

CONTACT US FOR FURTHER DETAILS

We provide turnkey construction services along with excellent customer service as part of our dry solutions. Call our technical staff today for further information about Nova Dry Kiln and our Timber Dry Management system.

The Longest Lasting Debarker Head on the Market!

Why? Cutting Edge technology allows the carbide teeth to be indexed up to 6 times before they need replacing. That saves you money!

- 12" & 15" models
- Solidly constructed with All Steel bodies

The Bark-King Depth Control bearing can be used on many Rosserhead debarking heads to provide excellent control of the debarking process by preserving wood fiber.

Again — this saves you money!

So, get the #1 performing head on the market AND save money!

KASCO
WOODMAXX Premium Band Saw Blades

CUTS WHAT OTHER BLADES CAN'T

MAXX4 4° Hook Angle
for frozen wood and extreme hardwoods;
maximum performance on all horsepower saws

MAXX7 7° Hook Angle
for frozen wood, tropical woods, and extreme hardwoods;
great for wider cuts on all species; performs better on
higher horsepower saws

Both are available in 7/8" tooth spacing (1.1 TPI) on 1-1/4" x 0.042", 1-1/4" x 0.045", 1-1/2" x 0.050, and 1-1/2" x 0.055" bands.

www.WoodMaxxBlades.com

NEW HFP150 COMPACT FIREWOOD PRO From HAHN MACHINERY INC.

An affordable firewood processing attachment for those who use a lot of firewood but don't need the production capacity offered by the larger, more expensive commercial units.

Designed for use with most mid-sized and larger skid steer loaders, the new HFP150 Compact weighs 1700 lbs and requires a 15 gpm hydraulic flow.

Like its big brother, the HFP160 Firewood Pro commercial processor, the new HFP150 Compact can pick up a log up to 15" in diameter off the ground or deck, cut it into firewood lengths ranging from 12" to 20", and split those blocks into 2, 4, or 6 pieces with all functions being performed by one person from the comfort and safety of the loader's cab.

Please call **800-483-8825** or email info@hahnmachinery.com for a free DVD, complete specifications, and pricing.

HAHN MACHINERY INC • PO BOX 220
TWO HARBORS, MN 55616

www.HahnMachinery.com

Watch Hahn HFP 150 Compact online:
www.HahnMachinery.com

With the HFP150 Compact, the logs roll down the processor's forks into the machine's unique "shuttle trough" which carries the log up to the splitting wedge in 24" increments. Once the log is advanced to the cutting position, the trough retracts and a high speed hydraulic chainsaw cuts the firewood block. The block drops into the splitting trough and, as it's being split, the "shuttle trough" is carrying the next log segment in for cutting. The cycle is repeated until the entire log has been reduced to cut and split firewood.

HIGH DEMAND FOR EXHIBIT SPACE AT EXPO RICHMOND 2016

Sales of exhibit space for the 35th East Coast Sawmill and Logging Equipment Exposition (**EXPO RICHMOND 2016**) are pacing well ahead of schedule with over 68% of the available space committed as of early December. The exposition is scheduled for May 13-14, 2016, at Richmond Raceway complex in Richmond, Virginia and will be 2016's largest showcase of sawmill, logging, pallet and related manufacturing equipment, supplies and services in the United States. It is co-sponsored by the Virginia Forest Products Association and the Cooperative Extension Service of Virginia Polytechnic Institute and State University.

A high percentage of companies who exhibited in **EXPO RICHMOND '14** have already signed up for the 2016 show. A high volume of inquiries from new exhibitors flood the show management offices daily. The Richmond show continues to be a valuable, cost-effective sales and marketing opportunity for exhibiting companies.

Don't miss your opportunity to be a part of EXPO Richmond 2016. For more information about either exhibiting or attending, please call (804) 737-5625, fax (804) 737-9437 or e-mail: Info@exporichmond.com. More information can be obtained by visiting ExpoRichmond.com.

Rough Terrain Forklift

Sellick Equipment Ltd. of Harrow, Ontario, Canada announces a new model of rough terrain forklift. The model S150, 15,000 lb. capacity @ 24" load center is now in full production. This new model is powered by an economical 74 HP 4 cylinder intercooled tier 4 final electronic engine that produces 295 ft/lbs of torque. Operator safety and comfort is consistent with all Sellick models. The S150 features a fully isolated operator platform that reduces noise and vibration, and the overhead guard structure is both ROPS and FOPS certified. Operators can monitor the machines systems through a multi-function digital LCD screen that also provides on board diagnostics that reduces downtime.

The S150 is designed for heavy industrial applications to meet the most demanding sawmill conditions. Established in 1969, Sellick Equipment continues providing quality rough terrain material handling products and support through a North American wide dealer network.

Call toll-free or email today for complete information, 1-877-735-4525 or sales@sellickequipment.com.

Model TX Pallet Stacker

NEW for 2016, PRS has introduced a newly remodeled version of their popular Model TX pallet stackers. These fully automatic pallet stackers are hydraulically powered, plc controlled and stack pallets at rates of 10-12 per minute. The new design features a simplified, low maintenance pallet gate, improved hydraulics and more manual over-ride features.

For more information, contact: PRS today (866) 546-8864 or visit their website at: <http://www.pallet-repair.com/equipment/Material-Handling/>

CNC Guide Dresser

Williams & White Equipment of Burnaby, BC has further expanded its product line with the introduction of its new CNC Guide Dresser. The company, a leading manufacturer of saw filing equipment for nearly 50 years, made a big splash last year with its highly anticipated saw sharpening center.

The new Guide Dresser accurately mills Babbitt to a tolerance of +/- .0002 inch at speeds up to 20 times faster than manual machines. The Williams & White model also significantly reduces floor space by using customized flexible fixturing to accommodate all saw guides on one machine (compared to the multiple manual machines typically used).

As one of the industry's largest steel and aluminum saw guide manufacturers, Williams & White knows the importance of accuracy. An accurate saw guide is critical in maximizing lumber recovery and profits.

Bandit Builds **Your Bottom Line.**

THERE ARE MANY REASONS WHY PROFESSIONALS AROUND THE WORLD TURN TO THE BEAST® FOR GRINDING AND RECYCLING PALLETS.

Rugged construction, excellent fuel economy, and exceptional performance. Bandit's patented cuttermill easily grinds pallets into any number of desirable end products – whether it's mulch, boiler fuel, or pellet stock. And powerful magnets trap metal nails before material leaves the discharge, helping ensure you have a cleaner, more valuable product.

Beast XP-Series Horizontal Grinders make you money... Bandit Builds your bottom line.

Let us prove it to you! Contact Bandit Industries today to set up a machine demonstration. Call 1-800-952-0178 or visit us online at www.banditchippers.com.
