oc cemetery decoration notice

The Orange City Cemetery has a policy that flowers and decorations need to be removed by June 15 of each year. This is to allow efficient mowing and maintenance of the cemetery. Over the past few years, we have not enforced this policy and find that more flowers and decorations are staying in the cemetery throughout the year. This year we are asking that all flowers and decorations be removed by June 15, otherwise we will remove them and bring them to the parks maintenance building in the middle of Veterans Park where family or friends can pick them up until June 30. This applies to anything that is not permanently attached to the base or gravestone. Flowers and decorations may be placed at grave sites from May 20 - June 15.

Thanks for your understanding and compliance. If you have any questions, call the City Office at 712-707-4885.

From cabinets, to counter tops, to closets!!! **CENTURY CABINETS LLC** of Orange City keeps growing and offering more.

This 11-year-old company had an interesting start. Greg Roos has over 20 years of cabinetry experience! He started his carpentry/craftsman skills as a young man, age 16 and learned a lot from his carpenter father.

11 years ago Greg and Julie Roos moved back to Orange City and that's when "Century Cabinets" went from a dream to OPEN! Julies parents offered the barn on the Noteboom Century farm and the first cabinets were made.

The company offers the products that they are proud to say are all made locally! The employees are also all local as well!

Century Cabinets offers 3D design, custom cabinetry, all countertops & installation too! They build kitchens, baths, closets, & they even make laminate tops with seamless sinks right at the shop,....

They are truly all Custom! They offer FREE design and estimates for any project you may be dreaming of. With many materials, countertops, stains, & sizes to offer, they can accommodate any budget making them very affordable! Variety of materials include hardwoods, melamine's, laminates, stones, quartz, granite or laminate.

Since 2007 the business has added state of art equipment, CNC Machining and had enjoyed 2 major additions making for an efficient, work space.

Having a good product is vital. BUT what Greg and Julie pride themselves on is having the BEST group of skilled, trusted, and dedicated employees who ALL offer great customer service and take pride in what they do!

Century Cabinets has helped with the unique, and beautiful aspects of many area homes. Both new, and remodels. They definitely have the ability to WOW you!

So.....give Century Cabinets a call (712) 707-9950 OR see their galleries on Facebook or check out the website: www.centurycabinetsoc.com

Tornado Awareness
WHAT TO DO...

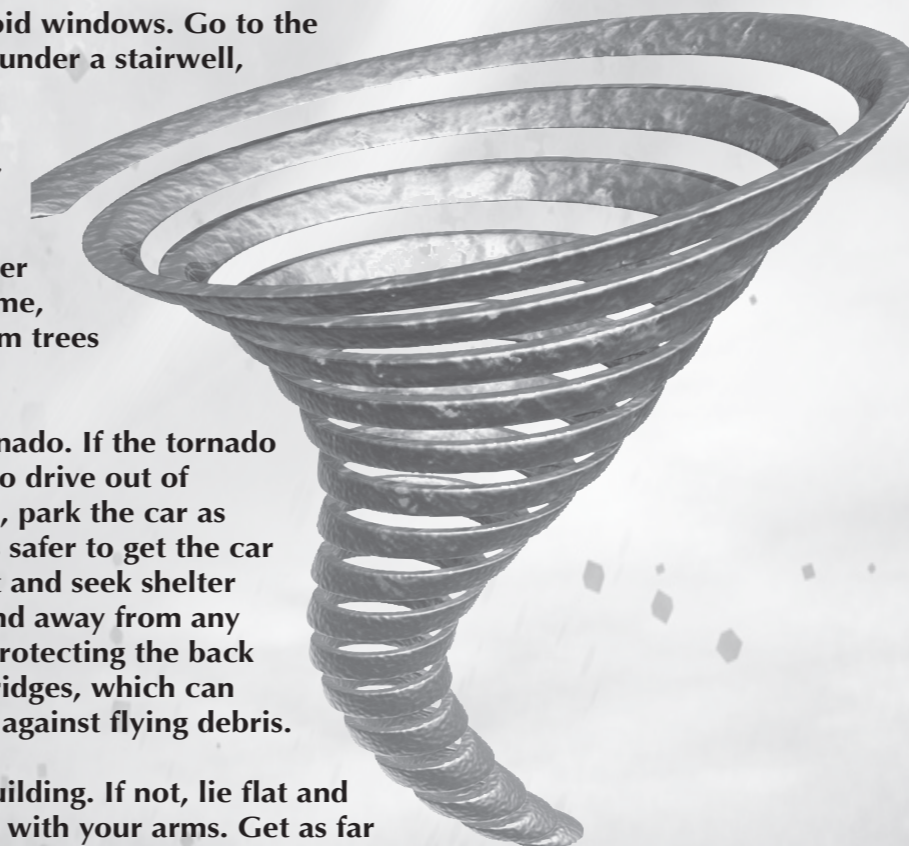

In a house with a basement: Avoid windows. Get in the basement and under some kind of sturdy protection (heavy table or work bench), or cover yourself with a mattress or sleeping bag. Know where very heavy objects rest on the floor above (pianos, refrigerators, waterbeds, etc.) and do not go under them.

In a house with no basement, a dorm, or an apartment: Avoid windows. Go to the lowest floor, small center room (like a bathroom or closet), under a stairwell, or in an interior hallway with no windows.

In a mobile home: Get out! Even if your home is tied down, you are probably safer outside, even if the only alternative is to seek shelter out in the open. If there is a sturdy permanent building within easy running distance, seek shelter there. Otherwise, lie flat on low ground away from your home, protecting your head. If possible, use open ground away from trees and cars, which can be blown onto you.

In a car or truck: Vehicles are extremely dangerous in a tornado. If the tornado is visible, far away, and the traffic is light, you may be able to drive out of its path by moving at right angles to the tornado. Otherwise, park the car as quickly and safely as possible -- out of the traffic lanes. [It is safer to get the car out of mud later if necessary than to cause a crash.] Get out and seek shelter in a sturdy building. If in the open country, run to low ground away from any cars (which may roll over on you). Lie flat and face-down, protecting the back of your head with your arms. Avoid seeking shelter under bridges, which can create deadly traffic hazards while offering little protection against flying debris.

In the open outdoors: If possible, seek shelter in a sturdy building. If not, lie flat and face-down on low ground, protecting the back of your head with your arms. Get as far away from trees and cars as you can; they may be blown onto you in a tornado.
