WE SELL & INSTALL

Car audio & video, keyless entry, remote start, alarms, TVs, surround sound home theater systems. Stereo Center, 1652 Town Square Shopping Center, 256-734-8053.

Many church people claim to be like Christ by calling themselves Christians then accept sin (1Jn 3:4) as a way of life, teaching their oral interpretations (Pharisees) as truth (Mt 15:9). Some churches claim to have authority to forgive all sins, even preach their members into heaven, some required money. It is not written Christ gave the key to heaven to man (Psalms 127:1) as it was given to Peter (Mt 16:19) to forgive or condemn all debts against The Holy Father Elohim. Peter could raise the dead. Where is the church that can? But we are to forgive our debtors (Mt 6:1-15). Christ was without sin and said sin no more (Jn 5:14, 8:11, 1Jn 3:8-9). Based on what Christ said to Peter for a warning (Mt 16:22-23), whoever speaks against The Holy Truth (Jn 14:6, Gen 3:1-24) is Satan. So Be It

A supplement that combines antioxidants with zinc and copper is a relatively inexpensive and effective means of halting the progression of the 'wet' form of age-related macular degeneration (AMD), a degenerative eye disease, concludes research published online in the British Journal of Ophthalmology. In 'wet' AMD, abnormal blood vessels grow underneath the retina. These vessels can leak fluid and blood, which can damage the macula- the part of the retina responsible for central vision. But the drugs (anti-VEGF therapies) currently used to treat 'wet' AMD are expensive and have been linked to heightened risk of inflammation of the inside of the eye (endophthalmitis) and possibly stroke as well.

Antibiotics prescribed by dentists may contribute to the growing problem of Clostridium difficile (C. diff), a serious and potentially deadly infection that causes severe diarrhea, suggests research presented at a recent Infectious Diseases Society of America conference. And many of those antibiotics are likely unnecessary, researchers note. Taking antibiotics can put patients at risk for developing C. diff and illustrates the importance of using the medications only when needed

A new study ranking the safety and effectiveness of four drugs taken to enhance concentration, memory, alertness and moods found that donepezil was most likely to effectively improve cognition in patients with Alzheimer's dementia. However, patients who took donepezil were more likely to experience side effects including nausea, vomiting and diarrhea than those who received a placebo, according to the study, published online in the Journal of the American Geriatrics Society. In 2015, 46 million people worldwide had Alzheimer's disease, according to the study.

SHOP TODAY'S LOW PRICE TAGS:

We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS:

Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.

IS WHAT WE ARE ALL ABOUT

SHOP TODAY'S LOW PRICE TAGS:
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS:
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.
