adding on? don't sweat it.

Thinking of adding a sun room, but don't want to mess with existing duct work? A ductless heat pump, or "mini-split," might be the perfect answer to both heat and cool your new space. These highly efficient units - which can be adjusted by remote control - can cut your cooling costs by 30 percent. And in colder months, they use 60 percent less energy than other electric heaters. Newer models are designed to work efficiently in cold climates.

Ask us about our \$250 rebate for ductless systems, or visit: www.brightenergysolutions.com.
