WaLLi Members Outside Of Saw's Juke Joint

## Over 50? Check Out What WSCC WaLLi Program Has To Offer

Area residents 50 and over who want to learn more about the Wallace State Lifelong Learning Institute (WaLLi) will have the opportunity to get information about the program and sign up for the next semester or the year at an Aug. 1 meeting from 2 to 4 p.m., on the 12th floor of the Bailey Center.

WaLLi was launched in 2016 as a revitalized program for area residents aged 50 and up. Enrollment is currently at 250, with members coming from Cullman, Blount and Morgan counties. It is open to all area residents, with enrollment offered by semester or by year. Membership is \$40 per semester for fall and spring and \$30 for the summer semester, or by year at \$99 annually starting each August.

"Whether you enroll by semester or annually, you really get a lot for your investment," said LaDonna Allen, director of the WaLLi program. During the meeting, Allen will go over what all is offered to WaLLi members and allow those who sign up for the year a head start on registering for trips, activities and classes planned for Fall 2018. Annual membership also includes a WaLLi T-shirt.

WaLLi membership includes access to the Wallace State Wellness Center, WaLLi courses, seminars from community partners, trips, social luncheons, free admission to many Wallace State athletic and cultural events, discounts on WSCC Services and more. Weekly activities include exercise classes, volleyball games, yoga classes and a walking group. Each semester is filled with educational opportunities and lectures, games, arts and crafts, movies, and more. In addition to recurring member favorites, each semester brings a new list of activities and trips.

The schedule for Fall 2018 includes an American History Trip to Montevallo and Columbiana and a thrift store trip with stops at Unclaimed Baggage in Scottsboro and stores in Arab and Albertville. Closer to home, the group will visit Cullman Oktoberfest and the Cullman County Fair.

Allen said WaLLi members enjoy the fellowship of getting together and making new friends. "They enjoy the socialization, the trips and we all enjoy the great food when we eat out or have our monthly potluck luncheons," Allen said. "It is a wonderful group where members support each other and learn new things."

Allen said this fall will also feature a Living Well series of classes. Students from Wallace State's Physical Therapist Assistant program will work with them on health topics geared toward mature adults including, among other topics, fall prevention and fall-proofing your home, back safety and measuring their gait. Ballroom dancing classes will return for the fall, with any WaLLi member welcome to take the classes, with or without a dance partner.

As an added benefit, WaLLi members are eligible to join the Wallace State Alumni Association at the student rate of \$15 per year. This affords them a discount on trips planned by the Alumni Association and discounts to supporting merchants and organizations. WaLLi members do incur additional costs with some classes and trips, and most meals are Dutch treat during planned outings. But the costs are kept at the minimum, Allen said.

For information about WaLLi, call 256.352.7818 or email walli@wallacestate.edu or visit <http://www.wallacestate.edu/walli>

It appears to be accepted by some for a church member to lie for the love of money (1Tim 6:10) and still be a Christian! But it does not stop there, many people have been led by false Sheppard's (2Cor 11:13-15) some can sin and be forgiven in prayer, some cannot out sin God's love and are saved and forgiven, no need to pray (Gen 3:1-24, Ezek 13:22). Christ was manifested to destroy the devil's work (1Jn 3:8-9) and said sin no more (Jn 5:14, 8:11). It comes as no surprise the Biblical Truth of Christ (Jn 14:6) is not taught in these so-called churches (Heb 6:4-6, 10:26-31, 1Jn 3:8-9). So Be It!

A long-term randomized study published in the journal Pediatric Research now shows that providing such babies with iron supplements can prevent behavioral problems at school age.

The U.S. Food and Drug Administration has approved Mylotarg (gemtuzumabozogamicin) for the treatment of adults with newly diagnosed acute myeloid leukemia whose tumors express the Cd33 antigen (CD33-positive AML). The FDA also approved Mylotarg for the treatment of patients aged 2 years and older with CD33-positive AML who have experienced a relapse or who have not responded to initial treatment. AML is a rapidly progressing cancer that forms in the bone marrow and results in an increased number of white blood cells in the bloodstream. The National Cancer Institute of the National Institutes of Health estimates that approximately 21,380 people will be diagnosed with AML this year and that 10,590 patients with AML will die of the disease.

Rivaroxaban plus aspirin reduces major adverse cardiovascular and limb events by nearly one-third in patients with peripheral artery disease, according to results presented at the European Society of Cardiology Congress. Peripheral artery disease (PAD) affects an estimated 200 million people worldwide and is strongly associated with concomitant coronary, cerebral, and peripheral atherosclerosis. Patients are at increased risk of heart attack, stroke and death from cardiovascular causes, as well as limb-threatening ischemia and amputation. Aspirin is the standard antithrombotic therapy but is only modestly effective.

## IS WHAT WE ARE ALL ABOUT

**SHOP TODAY'S LOW PRICE TAGS:**  
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for the blue tags on the shelves.

**NO LIMITS:**  
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.
